SOUMI PAUL

Node JS Developer

Experienced Node.js developer with 1.4 years of expertise, proficient in crafting intricate features and maintaining clean coding standards for superior solutions. Strong communication skills. Currently exploring frontend technologies, eager to excel in backend and full-stack development roles. Seeking opportunities to leverage skills and drive advancement.

Skills

- Javascript
- Node.js
- Express.js
- MongoDB
- React.js
- Basic Next.js
- Git , GitHub
- aws

Experience

January 16, 2023 - Present

Hih7 Webtech Pvt Ltd. Kolkata, West Bengal 700053

Node JS Developer

- As a Node.js developer on various projects, I've adeptly crafted and deployed complex features, ensuring functionality and quality through rigorous testing and debugging.
- Proficiently employed MongoDB, Express.js, React.js, and Node.js for seamless application development. Utilized React.js and React Router Dom for efficient frontend development.
- Employed Git for version control, ensuring code integrity throughout the development process.

Projects

Guardian Banking Solutions: Revolutionizing Bank-Client Interaction

Overview: MERN stack project focused on revolutionizing bank-client interaction. Utilized Node.js, MongoDB, Express.js, and JavaScript.

Key Features:
- Streamlined application process via dedicated operators.
- Intelligent matching algorithm for personalized quotes, reducing approval time.
- Promotes transparency, fostering trust between banks and clients.
- Optimizes banking experience for efficiency and simplicity.

Mission: To optimize the banking experience, empower financial institutions, and enhance the financial ecosystem.

iRewardify: Transforming the Gifting Experience

Project Overview: MERN stack project aimed at revolutionizing gift-giving. Utilized Node.js, MongoDB, Express.js, and JavaScript for backend development.

Key Features:
- Operates as a GiftCard Ecommerce Website, offering digital and physical gift cards from renowned brands.
- User-Friendly Interface simplifies gift-buying.
- Personalized Options allow users to customize gifts.
- Prioritizes Secure Transactions and offers dynamic features like themed designs and scheduled delivery.

Benefits:
- Hassle-free shopping experience for customers with convenient features.
- Robust backend system provides insights for merchants to showcase products through branded gift cards.

User Types:
- Customer: Purchasers of gift cards.
- Vendor/Seller: Businesses offering products.
- Admin: Oversees platform operations.

Mission: iRewardify bridges the gap between individuals and businesses, offering convenience, style, and joy in the gift-giving experience.
